

MEMORANDUM FOR: DCI
DDCI

This is FYI. David Low and I attended a meeting with Director Adelman and a number of other policy officials yesterday morning on the issue of chemical weapons proliferation. Ken held the meeting to allow him to prepare an answer to Secretary Shultz on the CW issue. I am told you will receive a copy of Ken's memorandum to the Secretary.

During the discussion, I said that it was possible to provide more intelligence support to the CW proliferation question. I also said that expressions of high-level concern would be helpful in improving the Intelligence Community's performance. The new SNIE on CW Proliferation was mentioned in the meeting.

If David Low or I can help you here, please call.
